

Architectural Conservation

University of Edinburgh

Venues

Central Campus

Content

The highly regarded Architectural Conservation programme is more than 40 years old; it is the longest-established graduate historic preservation programme in the UK.

Whether you're approaching the field from an architectural, historical, geological or other viewpoint, this programme will guide you through the foundations and challenges of this important means of nurturing cultural and national identity.

You will benefit from learning on an historic campus (located in Edinburgh's World Heritage Site), and from the wealth of academic and intellectual activities associated with an internationally-renowned university.

You'll be part of the Scottish Centre for Conservation Studies (SCCS), a specialist teaching and research unit that provides the depth of expertise and resources that makes this programme one of the few of its kind in the UK to be recognised by the Institute of Historic Building Conservation.

Volunteering opportunities are also available through our partnerships with relevant organisations, allowing you to flex your skills in a practical setting.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

1 year

Faculty

College of Arts, Humanities and Social Sciences
