

Engineering Systems

Glasgow Clyde College

Venues

Anniesland Campus

Content

This course will give you the opportunity to expand your skills, knowledge and understanding of engineering systems and processes already gained through the completion of your HNC studies.

You will receive in depth training on many aspects of Electrical and Mechanical engineering allowing you to further enhance theories and practices that will benefit you in the workplace or prepare you for progression onto a degree programme.

Contents Include:

Practical hands-on engineering skills; Mathematics; Engineering systems communication; Measurement and system monitoring; Investigating design; System modelling techniques.

Start Date

August

Qualification

HND

Study Method

Full time

Course Length

1 year

Department

Engineering Systems

Entry Requirements

Relevant HNC. Interview.

SCQF Level

8

SCQF Points

«SCQFPoints»

Progression Routes

Relevant degree programme
