Sport Psychology

University of Stirling

Venues

Stirling Campus

Content

The BSc (Hons) Sport Psychology degree will enable you to develop an in-depth understanding of the diverse, complex, and wide-ranging territory of the disciplines of psychology and sport and exercise psychology.

The course will explore academic knowledge and practice associated with sport and exercise psychology, analyse psychological issues across a range of sport and exercise psychology settings (for example, from local communities to high performance settings), examine research evidence associated with sport and exercise psychology, and investigate a myriad of contemporary issues facing practitioners.

The course will provide you with the knowledge and skills needed to be a successful contributor to the disciplines of psychology, sport psychology, and exercise psychology at local, national, international and global levels.
