Engineering Systems (Level 6)

City of Glasgow College

Venues

Riverside Campus

Content

Looking to become a technician or technical engineer?

This course will develop your theoretical and practical knowledge of the automated manufacturing industry, as well as helping with the specific skills you'll need to succeed. You'll be taught by staff with significant engineering experience and a proven track record of bringing out the best in their students. Throughout the year, you'll be continually assessed and you'll have the ability to discuss your evaluation of modules. You will be asked to carry out practical workshop work where you'll need to wear appropriate Personal Protective Equipment (PPE).

This Automated Systems Engineering course will equip you with an understanding of the knowledge surrounding automated engineering technologies. You'll gain an understanding of how electrical, electronic and mechanical circuits work, the variety of components and systems that you may encounter in the Manufacturing Industry, together with the tools and skills required to work in the sector.

Tuesdays 9.00am - 5.00pm

Start Date

August

Qualification

NC

Study Method

Part time (day)

Course Length

1 year

Department

Engineering

Entry Requirements

4 subjects at National 5 including Maths and a science subject, or relevant national qualifications at SCQF Level 5. Interview.

SCQF Level

6

SCQF Points
