

Psychology with Forensic Scene Investigation

Abertay University

Content

The perfect mix of psychology, criminal investigation and forensic science.

Discover the psychology surrounding crime scenes, and how forensic evidence is processed, interpreted, and preserved. You'll go on field trips to places like the mortuary and bomb disposal sites. Applying forensic psychology to police investigations, you'll learn how to provide evidence which may be used in the criminal justice system. You'll graduate with a strong set of interpersonal skills.

The accreditation by the British Psychological Society (BPS) is essential if you want to become a Chartered Psychologist. It means successful graduates can apply for further professional training. This degree also received educational recognition from The Chartered Society of Forensic Sciences (CSFS).

Start Date

September
