

## Intermediate Computing

Dumfries and Galloway College

### Venues

Dumfries Campus

### Content

This course introduces learners to several areas of computing including Computer Game Design, Website Design, Computer Hardware, Computer Support, Computer Software Applications and provides a good basis to progress onto a more advanced level 6 qualification or to gain employment as a junior IT trainee. With the addition of E-sports units this will give individuals an introduction into the world of professional competitive gaming.

This programme is aimed at learners who have chosen a career in the field of Information and Communication Technology (ICT).

Content includes:

Computer Games Design and Development, Website Design, Graphics and Development, Introduction to E-sports and Plan an E-sports event.
