

## Applied Animal Science (top up)

Scotland's Rural College (SRUC)

### Venues

Barony Campus

### Content

The aim of this course is to give you a sound knowledge and understanding of animal science and its applications. You'll learn practical and laboratory skills and develop an understanding of the environmental, ethical and economic contexts in which the sector operates.

You'll discover how animal science helps to improve the productivity and sustainability of livestock production systems and control disease epidemics. And you'll learn how it can be used to raise standards of animal welfare, and to enhance wildlife biodiversity.

Content includes: Comparative Physiology; Host-pathogen Interactions; Animal Conservation; Animal Breeding and Genetics; Animals and Climate Change.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc/BSc Hons

### UCAS Code

D300

### Course Length

2 years

### Department

Animal Sciences

## Entry Requirements

Relevant HND.

## SCQF Level

9/10
