

Advanced Sustainable Design

University of Edinburgh

Venues

Central Campus

Content

Advanced Sustainable Design gives you the knowledge and skills to put theory into practice in the sustainable development of our cities, towns and countryside. We work from the scale of building systems to entire regions.

Applications are welcome from graduates of all disciplines. Our field is architecture, design and planning but we welcome graduates in environmental sciences and the humanities.

The programme is delivered in a series of practical projects supplemented with workshops and seminars on all aspects of sustainable design. You have an opportunity work in building simulation modelling and gain desirable skills for the workplace.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

1 year

Faculty

College of Arts, Humanities and Social Sciences

Department

Edinburgh College of Art

Entry Requirements

Normally a UK 2:1 honours degree, or its international equivalent, in a relevant subject.

You must put together a collection of visual support material of work you have done at University, professionally, or following your own interests. It can include drawings, photographs, journals and notebooks. This should take the form of a PDF portfolio of work and be no more than 10 pages. You should limit your file size to 25Mb. Filesharing links are accepted.

SCQF Level

11
