

Engineering Systems (Level 6)

UHI Moray

Venues

Main campus
Virtual Learning Environment (VLE)

Content

This course aims to give you a thorough grounding in the engineering principles required for entering employment at technician level. This course can also provide a progression route to the HNC Engineering Systems course.

When you apply for this course you will pick to either follow a mechanical or electronic engineering route.

If you are opting to follow the mechanical route the course will develop your skills to prepare you for the servicing and manufacturing industries.

If you are opting for the electronic route, the course will develop your practical applications of electronics in industry. You will also cover the necessary theory in electronic principles and maths.

This course is suitable if you are an existing employee in the engineering and related industries, and can access the programme on a day release basis as part of a modern apprenticeship programme.

Start Date

August

Qualification

NC

Study Method

Part time (day)

Course Length

2 years

Department

Energy, Engineering and Construction

Entry Requirements

4 subjects at National 5 (2 at B including Maths); or relevant national qualifications at SCQF Level 5.

SCQF Level

6

SCQF Points

«SCQFPoints»

Progression Routes

HNC Engineering Systems
