Cyber Security (3rd year entry)

Dumfries and Galloway College

Venues

Dumfries Campus

Content

BEng Cyber Security will teach you how to protect and secure modern data infrastructure. The course will allow you to develop many industry relevant skills based around the ethical hacking framework underpinned by a thorough understanding of both networking and programming theory.

As the country's security and prosperity rests on digital foundations, it has never been more important to be protected from those who seek to exploit weaknesses and launch attacks.

The course has been created to meet a growing need as identified by the Scottish and UK governments for individuals who possess a skill set to meet the challenges posed by the constantly evolving computer systems.
