

Pre-Apprenticeship in Carpentry and Joinery

Dumfries and Galloway College

Venues

Dumfries Campus

Content

This course will provide you with the skills and attitudes that will help you in achieving progression to becoming an apprentice in carpentry and joinery. As well as learning mainly practical skills and a small amount of theory in carpentry and joinery. You will also learn other necessary transferable essential skills that employers value such as health and safety, working with others, problem-solving, basic numeracy, communications, and Information Communications Technology (ICT).

Examples of practical elements of this course that you will cover are:

Introduction to carpentry and joinery tools and techniques; Marking, setting out, and manufacturing a timber door; Hanging your door in a opening and furnishing with handles and facing etc.; Marking, setting out, and manufacturing a scaled version of a staircase; Learning and using woodworking machines in a safe manner.
