Content

Financial Services is a large sector in Scotland with a number of employment opportunities. This course combines core elements of Business with specialist Financial Service units that have been selected specifically to give you an advantage if applying for roles in Financial Services.

This course is designed to provide you with the key competencies required by anyone entering the Financial Services Industry as a trainee, or at a technical level, or for anyone already working in such a position but wishing to lay the foundation of a professional career.

Mandatory units are:

Investment; Principles of insurance; Pension provision; Financial services regulatory framework; Income tax; Statistics for business; Economics 1: micro and macro theory and applications; Personal and business lending; Research skills; and Graded unit 2 project.
