Introduction to Outdoor Learning (Level 2)

Glasgow Kelvin College

Venues

East End Campus

Content

This course is a great choice if you enjoy being outdoors and want to learn through hands-on projects in nature. You'll spend time both outside and in the classroom, developing skills in conservation, teamwork, and independent learning.

You'll learn about the natural world, how to grow food, and how to care for plants around the college grounds.

You'll also have the chance to gain real work experience by helping park rangers and local charities that support people and protect wildlife.

The course helps you build confidence, independence, and new life skills while working with supportive staff who want you to achieve your best.

Start Date

August

Qualification

NQ

Study Method

Full time
