

Introduction to Outdoor Learning (Level 2)

Glasgow Kelvin College

Venues

East End Campus

Content

During your studies you will have opportunities to develop your skills, confidence and independence by taking part in outdoor activities as well as working on projects in a classroom environment.

The course includes learning about the natural world and getting involved in conservation work. You will have the chance to improve your knowledge of maths by taking part in practical activities. You will learn how to grow food and care for plants on the college grounds.

You will gain work experience by assisting park rangers and supporting charities who help people and help wildlife.
