Web Development and UX Design

New College Lanarkshire

Venues

Motherwell Campus

Content

This course will give you the essential knowledge and skills required to thrive in the exciting and ever-evolving digital industry sector.

Starting with front-end web development using HTML and CSS, Digital Graphics and applying the theory of User Experience (UX) and User Interface (UI) Design, you will build the necessary skills to take a web project from conception to completion, delivering content for laptop, desktop, tablets and phones.

Building on these skills you'll learn native JavaScript and how to develop a Content Management System (CMS) website using WordPress. Back-end web development will be introduced using PHP and MySQL to develop a working search facility on a website.

You will be given the opportunity to develop employability skills by team working and involvement with real clients and web projects.

Start Date

August

Qualification

HNC

Study Method

Full time

Course Length

36 weeks
