

Engineering Systems (NextGen)

North East Scotland College

Venues

Aberdeen Altens Campus

Content

The aim of the HNC in Engineering Systems is to equip learners with the technical knowledge and skills as well as the professional skills and personal behaviours (meta-skills) that employers expect from individuals entering and working in industries within the engineering, renewables and advanced manufacturing sector at HNC level. It allows opportunities for specialisation in Engineering Systems.

The HNC Engineering Systems is a dynamic and flexible qualification that develops skills, self-awareness, creativity and resilience. Meeting industry and societal needs, they empower and enable learners to thrive in a fast-changing and complex world.

Start Date

August

Qualification

HNC

Study Method

Full time

Course Length

1 year

Department

Engineering

Entry Requirements

Higher Maths at A or B; or NC Engineering Systems (Level 6).

SCQF Level

7
