

Mechanical Engineering

Glasgow Clyde College

Venues

Anniesland Campus

Content

This popular HND course is a crucial gateway for anyone who wants a career in mechanical engineering. You'll get all the foundational knowledge and skills you'll need to excel - from practical engineering skills to theoretical principles such as heat transfer, fluid mechanics and design for manufacture.

Engineering jobs are experiencing high demand, and this course caters to the evolving needs of the industry, so you'll be equipped with skills to help you succeed both now and in the future.

You will study:

Engineering practical skills; Plant systems; Heat transfer and fluid mechanics; Strength of materials; Design for manufacture; Engineering measurement; Mechanical engineering Graded Unit 2 – Project based.

Start Date

August

Qualification

HND

Study Method

Full time

Course Length

2 years

Department

Engineering

Entry Requirements

Higher Maths or Physics or relevant national qualifications at SCQF Level 6.

SCQF Level

8
