

Access to Medical Sciences (SWAP)

Glasgow Clyde College

Venues

Cardonald Campus

Content

The course will introduce you to a range of science subjects to develop the skills and knowledge required for progression to one of our partner university degree programmes in medical related fields such as medicine, dentistry, veterinary medicine or pharmacy.

This is an academically demanding course and previous study of Biology, Chemistry and Maths at higher level is required. Relevant experience within a related field would be an advantage.

The programme is a combination of Biology units ranging from SCQF Level 6 – 8, Chemistry units from SCQF Level 5 – 6, Higher Maths units and Communications.

You will also complete a module designed to develop the academic skills necessary for studying at university.

Start Date

August

Qualification

Access to FE/HE

Study Method

Full time

Course Length

1 year

Department

Science

Entry Requirements

Entry to the programme is subject to interview and external reference. There will be an entrance test covering basic Biology, Chemistry and Maths knowledge. Your personal statement on the college application form is very important.

Due to the high level of Chemistry and Biology on the SWAP access programme students will be expected to have some appropriate qualifications in these subjects.

SCQF Level

6
