

Accounting and Finance

Open University in Scotland

Content

As the world of accounting and finance becomes more complex, this specialist degree is designed to provide you with a thorough understanding of the role of accounting and finance/financial management within business and society. This degree will equip you with not just technical skills to be able to practice accountancy or work in a finance-related field but also with academic knowledge and skills covering a wider breadth of topics that instil critical thinking, reasoning, research and creativity skills. The skills and knowledge gained studying this programme can be applied to a wide range of business activities, preparing you for a variety of exciting careers within accounting, finance and in business more broadly.
