Content

If you're planning a career in accountancy or the financial sector, studying at the University of Stirling is the perfect starting point. Our course boasts top-class teaching and multiple industry accreditation.

Studying Accountancy and Finance gives you the capability to prepare, present and interpret financial information for a wide range of organisations, and the skills you learn will enable investors, lenders, management and others to make key decisions based on financial details. Our combined Accountancy and Finance course includes content specifically geared towards entering the banking and investment industries.

The ideal path to a career in accountancy combines a university degree with recognised professional qualifications. The BAcc Hons Accountancy and Finance at Stirling has been created with this in mind, and successful completion of the course will result in many professional bodies giving you significant exemptions from their exams.

From a basic understanding of how to analyse financial statements, through to an in-depth knowledge of economics, taxation and reporting, our Accountancy and Finance degree covers everything you'll need to know to join the thousands of Stirling graduates who have successfully transitioned from this course into the professional world.
