

# Computer Science with Industrial Placement

University of Dundee

## Venues

City Campus

## Content

Do you have the skills required to enter a job market where digital ability is highly valued?

This degree is industry led and research driven. Theoretical computer science principles are put into practice through the application of real-world projects.

You will gain experience in the design and development of software across a wide range of platforms. You will be given opportunities to develop your problem solving and logical thinking skills to allow you to work as part of a high-performance software development team.

As part of your degree program, you will have the opportunity to participate in an industrial placement that will occur prior to your final year of study. This placement will provide you with a unique chance to develop your career aspirations and gain first-hand experience working in the computing industry.

## Start Date

September

## Qualification

Degree

## Study Method

Full time

## Award Title

BSc Hons

## UCAS Code

I101

## Course Length

4 years

## Faculty

School of Science & Engineering

## Department

Computing

## Entry Requirements

2026 entry requirements:

4 Highers at BBBC (BBCC for widening access entry) including Maths.

Advanced entry to 2nd year available with 2 Advanced Highers at BB including Maths plus 2 Highers at BB.

## SCQF Level

10
