Content

On this BA (Hons) Sustainable Development and Literature, you will expand your knowledge and critical understanding of the three pillars of sustainability (social, environmental, economic), learn the facts about climate change, explore the UN Sustainable Development Goals, and consider potential and emerging solutions such as the Green New Deals, the concept of 'degrowth', and the transition to wellbeing economies, leaving you ideally placed to influence, or indeed become, one of the decision-makers.

You will also explore Literature in a global context, looking in depth at language and literary history within texts and on the international literary stage. Our modules cover a wide range of authors, in English and translation, from the classical to the contemporary. With a solid foundation in genres and periods in years one and two, and research-based modules in years three and four, you will become a confident and enthusiastic writer, researcher, and reader.

Start Date

September

Qualification

Degree

Study Method

Part time (day)

Award Title
