

Film TV and Theatre Special Effects Artist

Ayrshire College

Venues

Kilwinning Campus

Content

This course will elevate your skills to an advanced and creative level. Our tailored curriculum keeps pace with the rapidly evolving industry.

Some of the exciting topics you may explore include:

lifecasting; sculpting techniques; making two-part moulds; mask making; A&E casualty special effects; creating headdresses and props for a total look; learning how to market your new services through social media.

You'll also have opportunities to gain exposure to different industry environments and hear from expert industry representatives.
