

Procurement and Supply Chain

City of Glasgow College

Venues

City Campus

Content

Supply chain management is regional, national, and global - it is everywhere. Supply Chain consists of many functions, from procurement, manufacturing, warehousing, and distribution. Logistics alone, is a key part of the UK economy, contributing over £127 billion and employing 1.7 million people.

Supply Chains are constantly evolving with new technology and innovation, modern production lines, strategising product movement from source to final customer.

Year one:

Supply Chain Fundamentals; Total Quality Management; Storage and Distribution; Principles of Retail Buying; Marketing; Customer Care; Procurement.

Year two:

International Purchasing & Supply; Supply Chain Project Investigation; Managing People & Organisations; Business Culture and Strategy; Associated Law.
