

Pre-Apprenticeship in Electrical Engineering (Level 5)

Dumfries and Galloway College

Venues

Dumfries Campus

Content

This is a nationally recognised certificate in electrical engineering. It should be viewed as the first year of a two-year course to allow you to obtain the level 6 National Certificate Program.

If you are looking to be employed within the electrical engineering sector, then this is an excellent starting point as a stepping stone towards being a technician or an electrical apprentice.

This course will equip you with electrical engineering and renewable energy skills. You will gain an understanding of how electrical circuits work, the variety of components and systems that you may encounter in the electrical industry together with the practical skills to help you gain work in the electrical, engineering or renewables sector. The course will include a project on domestic renewable systems that will introduce the skills and knowledge of a domestic renewable system.

Start Date

August

Qualification

NQ

Study Method

Full time

Course Length

1 year

Department

Engineering

Entry Requirements

4 subjects at National 4, or NQ Introduction to Engineering and Renewable Energy (Level 4). Interview.

SCQF Level

5
