

CECA Scotland Academy (Construction Operations)

West College Scotland

Venues

Paisley Campus

Content

The CECA Scotland Academy is a training to work pathway creating qualified Civil Engineering Operatives (CEOs).

Few industries shape our nation in the way civil engineering does. Our industry drives Scotland's economic growth, working across the roads, rail, water and power sectors; delivering the infrastructure our businesses and communities in Scotland rely on.

Employing over 30,000 workers and with £8.5billion worth of infrastructure projects scheduled in Scotland over the next decade, CECA Scotland together with the wider industry has created this academy as a pathway to create a route into employment and start a career for life.

Championing inclusivity and diversity in the sector, the programme has no entry requirements and applicants from all backgrounds across the country are encouraged to apply.

You will learn about: Workplace Health and Safety; Install Drainage; Lay Kerbs; Excavate Trenches; Reinstatement Ground Conditions; Form Concrete Structures; Lay and Finish Concrete; Temporary Excavation Support; Numeracy; Communication; Working with others; Influences on mental health and well-being; Working for yourself.

Start Date

August

Qualification

Other
