

## Natural Power Wind Turbine Technician Trainee

Dumfries and Galloway College

### Venues

Dumfries Campus

### Content

The award is designed for school leavers with acceptable qualifications, progressing students from level 6 courses or mature learners who upon completion wish to enter the Wind Turbine Maintenance sector.

This highly successful programme will develop your skills, confidence, and awareness of all the inter-related technologies both mechanical and electrical to allow you to develop a career within the Windfarm/Turbine industry. The programme also develops your practical engineering skills making you potentially work ready. The course also acts as the first year of a modern apprenticeship should you wish to pursue that route.

This is a focused program devised by employers, the Energy Skills Partnership, and associated colleges.

The College has a partnership with Natural Power (A local wind turbine site owner/operator), this will allow anyone that completes the course a guaranteed interview with Natural Power. If successful, you may be offered a paid placement for a period after the course has concluded.

### Start Date

August

### Qualification

NC
