Software Engineering with Emerging Technologies (2nd Year Entry)

Glasgow Clyde College

Venues

Anniesland Campus
Langside Campus

Content

This course covers a range of disciplines within software development, from core programming fundamentals and data structures to emerging technologies. As well as building your technical skills, you'll learn employability skills and problem-solving, helping to prepare you for a software engineering job in a field that's constantly evolving.

Content includes:
Object Oriented Programming; Object Oriented Analysis and Design; Rapid Application Development; Data structures; Web development; Software security; Emerging technologies; Web applications.

Start Date

August

Qualification

HND

Study Method

Full time

Course Length

1 year

Department

Computing

Entry Requirements

HNC Computing

SCQF Level

8
