Data Science (PDA) (Level 7)

Fife College

Venues

Dunfermline City Campus

Content

This course is designed for individuals looking to deepen their understanding of data analysis within a business or organisational context. Focusing on key concepts and theoretical frameworks, it provides a solid foundation for analysing data and applying analytical thinking to real-world challenges.

Participants will explore the principles behind data analysis, learning how to interpret data and use it to drive informed decision-making in various organisational settings. This course is perfect for those who want to strengthen their analytical skills and gain a deeper insight into the theory that underpins effective data-driven strategies.

You will study:
Working with Data; Communicating with Data; Data Science Project.
