

Art and Design Year 2 (in conjunction with the University of Stirling)

Forth Valley College

Venues

Stirling Campus

Content

The BA Art and Design course is a challenging, creative and exciting three year programme that encourages students to develop their creative practice while embracing a wider understanding of the theories and context of the wider arts world.

With the vast majority of degree programmes now require you to study either Art or Design, there are no such barriers within this interdisciplinary programme.

In year two you will have the opportunity to work across a selected range of specialisms. You will carry out a variety of art and design based projects, becoming more specialist as the year progresses, supported by feedback and advice from staff. Your practical project work will support a growing critical and contextual understanding of art and design theory.
