

Access to Software Development (Level 6)

North East Scotland College

Venues

Aberdeen City Campus

Content

In today's tech-driven world, software development and cybersecurity skills are in high demand.

You'll create real-world projects like building a website, developing your own app, and using scripts to test system vulnerabilities. With a curriculum designed to prep you for further computing qualifications, this course unlocks diverse career paths in software engineering, web development, IT security and more. This is an excellent opportunity to gain in-demand skills and experience that employers and universities look for.
