Computer Networking (in conjunction with the University of the West of Scotland) (3rd year entry)

New College Lanarkshire

Venues

Cumbernauld Campus

Content

In partnership with the University of the West of Scotland, this specialist programme in computer networking is designed to build upon your Next Gen HND Infrastructure and Cloud qualification and allows you to complete your degree in one year at New College Lanarkshire.

This programme will equip you with the skills needed to specialise in the networking and IT infrastructure industries.

From the operation of computing hardware and software, to specialist studies in wireless networks, virtualisation and cybersecurity, this programme covers a wide variety of topics in contemporary Computer Networking.

This programme is accredited by the British Computer Society.

You will cover the curriculum of the CCNA professional certification, explore Windows and Unix/Linux system administration and learn about data security and network management.
