Psychology with Health Sciences

Abertay University

Content

Use psychology to improve wellbeing by changing mindsets.

Explore how to create positive psychological change, helping people to develop healthier, more positive habits. You'll learn ways to support people living with chronic illnesses, alongside strategies to improve healthcare systems/processes.

With a focus on employability, you'll combine theory, practical skills and real-world experiences. Graduating with a valuable set of interpersonal skills, you'll be ready to help people make informed lifestyle choices and improve their quality of life.

The accreditation by the British Psychological Society (BPS) is essential if you want to become a Chartered Psychologist. Successful graduates can apply for further professional training.
