

Mathematics and Physics

Open University in Scotland

Content

Dive into the fascinating worlds of mathematics and physics with this diploma. You'll explore core mathematical theories and modelling while uncovering the principles that govern the universe, from the smallest particles to Newtonian mechanics. Along the way, you'll sharpen problem-solving, analytical reasoning, and communication skills that are prized in research, technology, and data-driven careers. This qualification provides a solid foundation for continuing your studies or entering scientific and technical roles where deep analytical thinking makes a significant difference.

Start Date

October, February

Qualification

DipHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Mathematics and Statistics

Entry Requirements

There are no formal entry requirements to study this qualification, but it is very important that you are well prepared to study mathematics at this level.

Computer and internet access required.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

You'll be equipped with skills and knowledge required for jobs in fields such as education, engineering, the pharmaceutical industry, business, finance, and accountancy.
