Mathematics and Physics

Open University in Scotland

Content

This certificate provides a solid foundation in two closely related disciplines: mathematics and physics. You'll develop core mathematical skills and knowledge and learn how they underpin key areas of theoretical and applied physics. As you study, you'll practise reasoning clearly, modelling real-world systems and communicating precise arguments. These skills are highly transferable, preparing you for further study or use in a wide range of roles. Whether you're fascinated by abstract ideas or practical applications, this qualification is an ideal first step in exploring maths and physics in depth.

Start Date

October, February

Qualification

CertHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Mathematics and Statistics

Entry Requirements

No formal entry requirements. Computer and internet access required.

SCQF Level

7

Progression Routes
