

# Astrophysics with Space Science

Open University in Scotland

## Content

This integrated masters degree combines undergraduate and postgraduate study, developing your knowledge and skills to explore the smallest and largest scales of the Universe. Pick from a standard, basic maths or advanced start to suit your current knowledge and understanding. Learn to objectively and quantitatively describe, analyse, test, and explain phenomena in our physical world and the wider Universe. Apply experimental, observational and numerical methods and develop appropriate mathematical and programming skills. Conclude with an original research project on a subject at the forefront of astrophysics or space science.

## Start Date

October, April

## Qualification

Degree

## Study Method

Online learning

## Award Title

MPhys

## Course Length

Flexible

## Faculty

General

## Department

Science

## Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

## SCQF Level

11

## Progression Routes
