Cyber Security (Graduate Apprenticeship)

Edinburgh Napier University

Venues

Merchiston Campus

Content

This Graduate Apprenticeship allows you to enhance your skills and improve your career prospects in the field of Cybersecurity by studying for a fully-funded university degree while in a paid, relevant job role. You will be equipped with the academic skills, industry accreditation and work experience that will give you a competitive advantage in a demanding marketplace.

Combining three of the most sought-after streams of computing, this course capitalises on the rising awareness of the importance of network security and is a valuable foundation to a successful and well-paid career. You will gain an enhanced knowledge of cybersecurity and develop the skills to adapt to challenging situations across a global computing infrastructure. This Graduate Apprenticeship provides relevant fundamental knowledge related to cybersecurity such as encryption and authentication, and also provides relevant practical examples through lab-based practice, while emphasising engineering practice.

Start Date

September

Qualification

Degree

Study Method

Full time
