IT: Management for Business (Graduate Apprenticeship)

University of Strathclyde

Content

The BSc (Hons) IT: Management for Business degree is a bespoke four-year Graduate Apprenticeship programme which will develop apprentices' knowledge, skills, competencies and professional behaviours.

The degree is designed in partnership with employers in different industry sectors and we work closely with Chartered Management Institute CMI looking at options for professional recognition.

During Years 1 and 2 of the degree learners will study core modules addressing:
Software Engineering; Data Analytics; Computer Networks; Ethical Governance; Business Finance and Financial Services; Managing People for Performance and Innovation.

In addition, learners will work closely with work-based assessors and mentors to enable them to apply their academic knowledge within their work context.

Years 3 and 4 are designed to develop higher level knowledge, professional competencies, and transferable skills via Project Management, Business Analysis and Technology Fundamentals , Software Engineering, Strategy, Risk and Scenario Planning and extensive work-based Integrated Business Project with real value to the employer.
