IT: Software Development (Graduate Apprenticeship)

University of Strathclyde

Content

Designed in partnership with industry, the BSc in IT: Software Development graduate apprenticeship (IT:SD) gives employers the opportunity for their IT professionals to gain an undergraduate degree over 48 months.

Course content has been developed in partnership with industry and is designed to equip apprentices with knowledge in contemporary tools and technology. The university's approach to work-based learning helps develop more rounded professionals, with a wide range of soft skills that enable apprentices to contribute widely to your organisation.
