Oban Centre

Content

Do you dream of a career in the beauty industry?

The NC Beauty Level 5 course will teach you all the basics and give you the hands-on experience required to kickstart your career. You will learn how to practice essential beauty treatments, such as makeup application, facial skincare, nail care, lash treatments, waxing and massage, whilst also gaining an understanding of the science behind the practices.

You'll spend most of your time in our college salon working with real clients, and learning from experienced lecturers, who have industry expertise as makeup artists and salon owners. You'll have the opportunity to visit local businesses to observe the daily operations of salons and spas first-hand, and gain valuable insight into the professional world.

There will be plenty of time to practice treatments during class and we'll even provide you with your own beauty kit to take home to practice your new skills.

Start Date

August
