Access to Merchant Navy Cadetship (Level 5)

UHI North, West and Hebrides

Venues

Stornoway

Content

The UK shipping industry is projected to double in size in the next 15 years, and relies on recruiting highly motivated young people to operate and manage the wide range of ship types that trade on a worldwide basis.

Currently, the minimum standard required by the Shipping industry for access to Deck and Engineering Officer Cadetships are four National 5 qualifications (equivalent to Standard Grade Credit or Intermediate 2) which must include Maths, English and a science subject, preferably Physics.

The purpose of this training programme is to provide candidates with these qualifications and help prepare them for a career at sea, by providing them with additional basic skills and qualifications, including Chartwork, Seamanship, Basic Sea Survival, First Aid, Health & Safety, and an introduction to the maritime industry.

Start Date

August

Qualification

NQ

Study Method

Full time
