Content

There are many exciting opportunities in Engineering Technology industries, both locally in the Highlands and Islands as well as nationally and internationally. Engineering employers are looking for employees who have, as well as the important employability skills, a wide knowledge and understanding of engineering as well as the ability to become specialists.

This programme, Engineering Systems NC, is offered in specific response to industry's request. It will help you develop your skills gained to date, whether in school, college or elsewhere, in Electrical, Mechanical and Systems (i.e. how it is all connected together to manufacture a product) Engineering. This is relevant to most engineering industries, including: Renewables, Oil and Gas, All Manufacturing.
