

## Web Development

Edinburgh College

### Venues

Milton Road Campus

### Content

This course will develop your skills in Web Development and associated technologies. You will be taught by industry-experienced College lecturers and learn a diverse range of knowledge in: Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript, Structured Query Language (SQL), Web Graphics, User Interface (UI), JavaScript and Social Media marketing.

This hands-on and practical course will enhance your employability skills. Edinburgh College has strong industry connections with Edinburgh-based digital companies. This course offers you an up-to-date award that reflects recent developments within the web design and development sector.

Each subject area you cover is tailored to the jobs available in the industry, providing the best education to help you progress towards a successful career. You will master the latest software packages, such as Adobe, and learn about dynamic website development. This course will ensure you are well-prepared for employment, self-employment, or second-year HND studies in web development and digital media.
