Statistics (Faster Route)

University of Glasgow

Venues

Gilmorehill Campus

Content

Year 2: You will take four courses covering topics in statistical methods and probability, introducing the ideas of likelihood and regression modelling.

You will also study one or two other subjects in year 2 according to your interests: see Degrees in Arts, Science and Social Sciences.

Years 3, 4 and 5: If you proceed to Honours (years three and four) you will gain an imaginative mix of theoretical and practical training, which involves project planning, report writing and the development of presentational skills. General topics covered across courses include probability, modelling, design, inference, computational inference, sampling and databases and a range of applications including biostatistics, environmental statistics and financial statistics.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MSci

UCAS Code

SF10

Course Length

4 years

Faculty

College of Science and Engineering

Department

School of Mathematics and Statistics

Entry Requirements

2027 entry requirements

3 Advanced Highers at AAA including Maths and a science subject plus Highers at BBBB.

SCQF Level

11
