

## Statistics (Faster Route)

University of Glasgow

### Venues

Gilmorehill Campus

### Content

Year 2: You will take four courses covering topics in statistical methods and probability, introducing the ideas of likelihood and regression modelling.

You will also study one or two other subjects in year 2 according to your interests: see Degrees in Arts, Science and Social Sciences.

Years 3, 4 and 5: If you proceed to Honours (years three and four) you will gain an imaginative mix of theoretical and practical training, which involves project planning, report writing and the development of presentational skills. General topics covered across courses include probability, modelling, design, inference, computational inference, sampling and databases and a range of applications including biostatistics, environmental statistics and financial statistics.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MSci

### UCAS Code

SF10

### Course Length

4 years

### Faculty

College of Science and Engineering

## Department

School of Mathematics and Statistics

## Entry Requirements

2026 entry requirements

3 Advanced Highers at AAA including Maths and a science subject plus Highers at BBBB.

## SCQF Level

11
