

Digital Development (3rd year entry)

New College Lanarkshire

Venues

Motherwell Campus

Content

This cutting-edge degree programme is meticulously designed to provide you with a solid foundation in theory, tools, concepts and processes required for the ever-changing ICT sector. With the ability to specialise in two disciplines, Software Development and Web Design, our programme ensures that you stay at the forefront of innovation, equipped with the skills and knowledge necessary to thrive in industry.

Software Development: Unleash your coding prowess and dive deep into the world of software development. Our programme develops your expertise and skill to help you design, build, and maintain robust software applications. From fundamental programming languages to advanced software engineering principles, you'll gain hands-on experience in creating scalable and efficient solutions.

Web Design: Craft captivating and user-centric digital experiences with our Web Design specialism. Develop a keen eye for aesthetics and a solid understanding of user interface (UI) and user experience (UX) design principles. From concept to execution, learn to create visually stunning and functional websites.
