

Mechanical Maintenance (Level 5)

City of Glasgow College

Venues

Riverside Campus

Content

This course allows students to develop technical engineering skills in Mechanical Maintenance. You must have a sound knowledge of Maths.

The course is structured to include practical elements as well as the associated underpinning theory units. You'll have the use of the college's extensive engineering equipment which includes a mechanical workshop and specialist labs. You'll be taught by highly qualified lecturers who have a wealth of experience within the engineering industry.

Start Date

August

Qualification

NC

Study Method

Part time (day)
