

Applied Biological Science

Dundee and Angus College

Venues

Kingsway Campus

Content

A wide range of theoretical and practical aspects are covered in this course including Microbiology, Tissue Culture, DNA Molecular Techniques, Cell Biology and Protein Structure.

A self-designed experimental project will also be carried out providing opportunities to develop practical and project planning skills.

The theoretical knowledge accompanied by practical techniques provides a diverse learning experience preparing students for further study or employment.

Start Date

September

Qualification

HND
