

## Construction - Road and Rail Operations (NPA)

Edinburgh College

### Venues

Granton Campus

### Content

This course is designed for students who want to expand their knowledge of construction, including general building, road maintenance and railway engineering. You will gain the NPA 5 Highways Maintenance - Kerbs and Channels award accredited through SQA.

This course offers practical, transferable skills and theoretical knowledge of the Construction Industry to help you find an apprenticeship or further study with us at the college.

This is a short full-time course delivered over 6 months.

This is a physically demanding course, where delivery is outside.
