

## Beauty Therapy (Progression)

Edinburgh College

### Venues

Milton Road Campus

### Content

Learn beauty therapy skills to a higher level. In this 1-year course, you will build your skills on beauty therapies that you studied at SCQF Level 6 and be taught and assessed on a more advanced skill set to prepare you for a career in Beauty Therapy that can lead to a more technical and supervisory level.

You will learn the therapeutic skills and knowledge you need to move into the highest level of the beauty industry by performing a variety of beauty therapy techniques and more advanced beauty treatment plans to meet industry requirements. You will also gain more hands-on experience working in our employability salon with the high-end product company Dermalogica, thus enhancing your employability prospects even further.

You will be fully prepared for the industry and setting up your own successful business with a wide range of salon and spa environments by assessing you in different methods from your work experience with clients' case studies to oral presentation skills.
